Founding of the colony

James Edward Oglethorpe founded Georgia in 1733. James settled in Georgia because of the tragic death of his best friend that died by deputation. He got there by sailing south west until he landed on an unknown colony. Many years later Georgia was the 4th state that became part of the thirteen colonies. Georgia is the last colony to become the united states. In 1763 Georgia was expanded. Georgia was the colony that is next to the Spaniards so they were the only ones to fight off the Spaniards. The first city in Georgia was Savannah
