Re: Upcoming School Closure

Dear Parents and Guardians,

In light of the recent communication from Superintendent Clenchy this afternoon that the district will be closed from Monday, March 16, 2020 through Friday, March 27, 2020, the Office of Pupil Personnel has been working diligently to make plans to support your students while they are at home. We will be working with our special education faculty to ensure that we can provide thoughtful and meaningful enrichment activities while students are at home. Our teachers will be providing supplemental activities for students who may need support beyond what is provided by the inclusion teachers. Our goal is to assist in maintaining skills while school is closed.

We recognize that many of our students receive counseling services and we will be offering a schedule for conference calls, emails and video chats to occur with students, as we want to keep our connection with the students during this time. We recognize that this is a rapidly changing situation and we are committed to our students and their well-being.

We appreciate your understanding as we carefully plan next steps during this critical time.

Mrs. Joan M. DeAngelis, Director of Pupil Personnel Services

Re: Upcoming School Closure

Dear Parents and Guardians,

In light of the recent communication from Superintendent Clenchy this afternoon that the district will be closed from Monday, March 16, 2020 through Friday, March 27, 2020, the Office of Pupil Personnel has been working diligently to make plans to support your students while they are at home. We have conducted conference calls with all of our program teachers and TEAM chairs to ensure that we can provide thoughtful and meaningful enrichment activities while students are at home. Our program teachers will be developing a weekly schedule of activities to assist in providing some structure during the school day. They will also be creating a schedule for conference calls, emails and video chats to occur with parents and students, as we want to keep our connection with the students during this time. We recognize that this is a rapidly changing situation and we are committed to our students and their well-being.

We appreciate your understanding as we carefully plan next steps during this critical time.

Mrs. Joan M. DeAngelis, Director of Pupil Personnel Services
